STATEMENT

To Smart Inovation Lda

On behalf of HPRD: Health Products Research and Development Lda, based at Estrada Municipal 506, 6200-284 Covilhã, NIF:510379508, I, Ana Cristina Palmeira de Oliveira, general manager, declare that the product

“Treatment: 50g/L Si Bac-Pure 101-TF + 10g/L Smart Fix; Washes: 100 cycles 30 min @ 40°C + 2G/L Detergent; Substrate: Polyester + Cotton”,

produced by Smart Inovation, is being tested at our facilities in order to confirm its antiviral activity.

The laboratory test that is being made is the procedure described in the standard ISO 18184:2019, for a contact time of 24 hours at room temperature (25°C), using the Vaccinia virus strain. This virus is considered the model for coronavirus as it is the enveloped virus included in the described standard.

The product antiviral activity value is higher than 3 corresponding to a virus reduction of 99.98% and an overall effect considered as **Excelent** under the described ISO standard.
